11 of 12 review helpful Does not cover all of Tucson By A Bowman The description of this map says that it covers Tucson and the surrounding areas and that is incorrect It stops before the Catalina Foothills area and the Oro Valley It also doesn't even completely show the Tucson International Airport I bought this map because we are moving to Tucson and I wanted to get a feel for where everything is visually We have This detailed map of Tucson Arizona has complete coverage for the city and surrounding area with an inset map for downtown plus most major tourist and business districts When you flip the map over you will find a complete street index and a city and vicinity map of the entire metro area
