2 of 2 review helpful Great Guide Book By Shopper This is the first time I have purchased Fodor s guide books having always bought the Lonely Planet guides in the past I am quite impressed with the layout and the content of the guide I find it is quite easy to read and has great ideas for sightseeing I actually prefer these to the LP ones now Bonus they have little duck icons for things that will be good for Northern California is filled with rugged redwood forests pristine stretches of Pacific Coastline and towering mountains But it also has more than its share of creature comforts from Napa Valley s wineries and spas to San Francisco s destination restaurants and exclusive boutiques Packed with in depth insider information illustrated cultural features and spectacular photography Fodor s Northern California 2013 shows the best the region has to offer
