0 of 0 review helpful Still the standard By Customer Phenomenal amount of info Just great The only problem with every Kelsey book is the way he lays out his info can be tough to tackle You have to read through a giant paragraph and try to separate out the info in there pertinent to you an the route you would like to take That being said it's truly a wealth of info and great photos There is none better if you This book includes the Blue John Canyon which is featured in the movie 127 Hours the story about Aron Ralston and his experience The Colorado Plateau is a large physiographic region covering roughly the southeastern half of Utah the northern half of Arizona the western fifth of Colorado and a small area in the northwestern corner of New Mexico It basically includes the middle third of the Colorado River drainage Almost all the canyons in this book are in Utah About the Author Kelsey has a degree in Sociology from Brigham Young University and from the University of Utah he has a Master of Science degree in Geography After college he began traveling visiting over 223 countries
