8 of 8 review helpful OK if you don t ask much By bukhtan I bought this map on the strength of multiple recommendations but was disappointed in it First the shading that s been washed over the map only serves to obscure the contours Quite a problem when you ve got three to six thousand feet of elevation change over only a few miles or just one mile I don t know what they meant to do with the shading Impress These maps are waterproof tearproof 100 plastic material and revised on a regular basis
