0 of 0 review helpful Nankoweap Needs more trail description By RV travler The book is 112 pages fully illustrated

Pages 49-63 are the 4 segment trail description of which over 50 are photographs. It was not the detailed trail description that I sought. Thus the book is filled with how to get to the trailhead and packing for the hike, history, etc. Read the Table Of Contents and make your own independent exploration of the fascinating Horsethief Trail in Grand Canyon National Park with this exceptional guide that includes maps, regional history, gear and provision recommendations, minimum impact suggestions, directions to the three different trail heads and a first aid guide. Follow the author on his solo hike, explaining not only the trail itself, the route guide too explains the compelling history surrounding the trail and is Approved by the National Park Service and the Grand Canyon Association for retail sale in Grand Canyon National Park. Archived at the Grand Canyon National Park Headquarters.
