By Christine Maxa : Arizona's Best Wildflower Hikes: The Desert desert wildflower reports for phoenix and northern arizona area with 59 national parks and north of 10000 state parks the us has no shortage of fruited plains or

majestic mountains to explore via its 193500 miles of trail Arizona's Best Wildflower Hikes: The Desert:

2 of 3 review helpful Not so helpful By Dorothea Casaubon For starters this book is based on the concept that if the author describes exactly where she found certain wildflowers you will find them too The vicissitudes of desert rainfall dates of bloom and plant reproduction make this a dicey bet The hike descriptions are merely names of wildflowers linked by phrases like the trail drops To the north look Explore the beauty of the Sonoran Desert with these 50 hikes Exciting on their own the trails come alive when the charismatic wildflowers appear on the scene Each trail has an accompanying map color photo detailed information and a lively narrative Plus the book has individual profiles for 50 different wildflowers a picture and description full of facts folklore and interesting information Don't let another Banner Year go by without witnessing Arizona's spectra
