**By Sherry G. Mangum, Richard K. Mangum : Sedona Hikes : 135 Day Hikes & 5 Vortex Sites around Sedona, Arizona (Revised 6th Edition)** Sedona Hikes : 135 Day Hikes & 5 Vortex Sites around Sedona, Arizona (Revised 6th Edition):

16 of 17 review helpful Good but could be MUCH better By Robert S Wright I bought this book based on all the positive reviews I used it last year and found it lacking First the positives The book serves as an excellent planning guide The driving directions to get to the trailhead are right on the money It also does a good job at describing the trail in terms of difficulty and what you will see It is also accurate The best Sedona hiking guide First released in 1992 the authors have worked constantly to keep this guide updated and current through this new revised 6th edition Each hike is shown on two facing pages with complete directions to the trailhead description of the hike interesting historical information and a map Each hike also has an elevation change graph season to hike graph difficulty and mileage graph and a how crowded graph There is a beautiful eight page s About the Author Richard Mangum was born in Flagstaff and from childhood has enjoyed getting out into the woods canyons hills and mountains surrounding his birthplace After graduating from Flagstaff High School he got a law degree and practiced law in Flagst
