2 of 2 review helpful Canyon Crossing By ReadingTeacher I enjoyed reading Canyon Crossing by Seth Muller I have hiked the Corridor Trails several times during various seasons and so could relate to Muller s stories He begins with the best description of the rock layers in the canyon that I have heard The main storyline is a solo hike that Muller makes in May from the North Rim to the South Rim As he arrives at each l There rsquo s the Grand Canyon as seen from one of the rims Spectacular Awe inspiring Dramatic And there rsquo s the Grand Canyon below the rims a very different place steeped in wilderness bus sized boulders tumbling streams knee shredding switchbacks solitude and the cataract punctuated Colorado River The trails in Grand Canyon National Park attract more than 80 000 permitted overnight backpackers annually as well as an untold number of day hikers and Canyon Crossing is an engaging read for anyone about to embark on a rim to rim hike mdash or perhaps resting up from a recent journey This isn t a guide but rather a thoughtful tribute to a space around which it s hard to wrap one s head mdash
